REASONS FOR ALLOWANCE

These reasons for allowance are presented in response to the amendments filed on 4/23/2007.

Claims 1-8, 10-30, 32-57, and 60-62 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show the combination of a filter having a support hoop, suspension strut, blood permeable sac, and a helix or coil entwined around the guidewire. The sections of the strand of wire are joined, but not by intertwining. This application contains a variety of means for attaching the proximal end of the filter assembly to a guide wire. The combination of the specific type of filter having the elements stated above with the details of the attachment to a guidewire distinguishes the current invention from the prior art. The prior art fails to show the struts extending through the lumen of a coil extending over a guide wire. The prior art fails to show the struts entwined around a tube with a guidewire moveable therethrough. The prior art fails to show struts having a zigzag shape. The prior art fails to show a biocompatible bead at the proximal ends of the wire. The prior art fails to show a tube with drilled holes with the ends of the wire placed in the holes. The prior art fails to show stamped flat regions and unstamped regions. Also, the above stated limitations are not obvious modifications of the Dieck '909 reference. Again, the combination of a support hoop, suspension strut, and blood permeable sac with the various embodiments for attaching the proximal portion of the filter assembly to a guidewire are novel and non-obvious in view of the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Neal whose telephone number is (571) 272-0625. The examiner can normally be reached on M-F 9:00-5:30.
